

UNI-RAM'S INTERNATIONAL SERIES OF SOLVENT RECYCLERS ARE CERTIFIED TO ATEX AND IECEX SAFETY STANDARDS

URS600CE

URS900CE

URS2000CE

Why is This Important To A Customer?

Uni-ram solvent recyclers provide clean recycled solvent for reuse. The area around a solvent recycler is a "Classified Area" due to the presence of solvent, a flammable liquid. **ONLY** a **certified** solvent recycler can be placed in a Classified Area. See your National Electrical Code (NEC).

Consider the NEC of the USA. It states that the area (12 meter radius) around the solvent recycler is a Classified Area. See the exhibit on page 2. The NEC also states that the work shop and paint room in all collision repair shops are Classified Areas. **ONLY** a certified solvent recycler can be placed in a Classified Area. Compliance is important to employees, owners, Government Agencies and insurance companies.

What Safety Certification Does Uni-ram Have?

The Uni-ram International series of solvent recyclers, noted by CE in the model number, comply to the ATEX directive Group II Category **2G Ex db ib IIA T2 Gb**. These codes are described on page 2. The notified body, SGS BASEEFA performed EU - Type examination in accordance with Annex III of the ATEX directive and issued the Certificate **Baseefa11ATEX0118** and **IECEX BAS 11.0057**.

Summary of Safety Certifications

LOCATION	CERTIFICATION REQUIRED BY NEC	UNI-RAM'S CERTIFICATION	LISTING BODY	APPROVED ZONE
NORTH AMERICA	UL2208 / CSA 22.2	UL2208 / CSA 22.2	INTERTEK/ ETL	CLASS 1, DIV 1, D
EUROPE	ATEX	ATEX	SGS Baseefa	ZONE 1
MORE THAN 30 OTHER COUNTRIES	IECEX	IECEX	SGS Baseefa	ZONE 1

Safety Certifications

We, at Uni-ram, know that certifications are very important to our customers. Contact Uni-ram or its distributor for a copy of Uni-ram's Safety Certification or visit the IECEX and ETL website below.

IECEX Certification:

<https://www.iecex-certs.com/#/deliverables/CERT/48635/view>

INTERTEK ETL Certification:

[https://ramuk.intertekconnect.com/WebClients/ITS/DLP/products.nsf/\\$\\$Search?OpenForm](https://ramuk.intertekconnect.com/WebClients/ITS/DLP/products.nsf/$$Search?OpenForm)

and enter, UNI-RAM, in the search box.

IECEX and ATEX Approval Group II Category 2G Ex db ib IIA T2 Gb

Codes:	Description	Codes:	Description
Group II	Non mining	ib	intrinsic safety
2G:	high protection, zone 1, Gas group	IIA	propane gas group
Ex	explosive atmosphere	T2	300 degrees C
db	flame proof enclosures, zone 1	Gb	zone 1

Classified Area

The classified area is a radius of 12 meters from the solvent recycler, the source of solvent, the flammable liquid. Source: NEC for USA.
